

Exhibit 8

Belews Revised Groundwater Model Figures Excerpt
September 27, 2016

Figures

| | <u>Page</u> |
|--|-------------|
| Figure 1. Flow Model Boundary Conditions | B-7 |
| Figure 2. Model Recharge Areas and Contaminant Source Zones (Ash Basin Waste Boundary) | B-8 |
| Figure 3. Observation Wells in Shallow Groundwater Zone..... | B-9 |
| Figure 4. Observation Wells in Deep Groundwater Zone | B-10 |
| Figure 5. Observation Wells in Bedrock Groundwater Zone | B-11 |
| Figure 6. Hydraulic Conductivity Zonation in S/M1 Model Layers (Model Layer 3) | B-12 |
| Figure 7. Hydraulic Conductivity Zonation in M2 Model Layer (Model Layer 4) | B-13 |
| Figure 8. Hydraulic Conductivity Zonation in TZ and BR Model Layers (Model Layers 5 and 6) | B-14 |
| Figure 9. Hydraulic Conductivity Zonation in BR Model Layer (Model Layer 7) | B-15 |
| Figure 10. Modeled Hydraulic Head (feet) vs. Observed Hydraulic Head (feet)..... | B-16 |
| Figure 11. Hydraulic Head (feet) in Shallow Groundwater Zone (Model Layer 4) | B-17 |
| Figure 12. Particle Tracking Results (see Table 7 for Advective Travel Times) | B-18 |
| Figure 13. Reverse Particle Tracking from Residential Wells | B-19 |
| Figure 14. Closure Scenario Hydraulic Head (feet) in Shallow Groundwater Zone (Model Layer 3) | B-20 |
| Figure 15. Predicted Arsenic (µg/L) at Monitoring Well AB-2D | B-21 |
| Figure 16. Predicted Arsenic (µg/L) at Monitoring Well MW-103S | B-22 |
| Figure 17. Predicted Arsenic (µg/L) at Monitoring Well GWA-18D | B-23 |
| Figure 18. Predicted Arsenic (µg/L) at Monitoring Well GWA-21D | B-24 |
| Figure 19. Initial (2016) Arsenic Concentrations (µg/L) in the Shallow Groundwater Zone | B-25 |
| Figure 20. Initial (2016) Arsenic Concentrations (µg/L) in the Deep Groundwater Zone | B-26 |
| Figure 21. Initial (2016) Arsenic Concentrations (µg/L) in the Bedrock Groundwater Zone..... | B-27 |
| Figure 22. “Existing Conditions” Scenario 1 - 2116 Predicted Arsenic (µg/L) in the Shallow Groundwater Zone | B-28 |
| Figure 23. “Existing Conditions” Scenario 1 - 2116 Predicted Arsenic (µg/L) in the Deep Groundwater Zone..... | B-29 |
| Figure 24. “Existing Conditions” Scenario 1 - 2116 Predicted Arsenic (µg/L) in the Bedrock Groundwater Zone..... | B-30 |
| Figure 25. “Closure” Scenario 2 - 2116 Predicted Arsenic (µg/L) in the Shallow Groundwater Zone..... | B-31 |
| Figure 26. “Closure” Scenario 2 - 2116 Predicted Arsenic (µg/L) in the Deep Groundwater Zone..... | B-32 |
| Figure 27. “Closure” Scenario 2 - 2116 Predicted Arsenic (µg/L) in the Bedrock Groundwater Zone..... | B-33 |
| Figure 28. “Excavation” Scenario 3 - 2116 Predicted Arsenic (µg/L) in the Shallow Groundwater Zone..... | B-34 |

| | |
|---|------|
| Figure 29. "Excavation" Scenario 3 - 2116 Predicted Arsenic (µg/L) in the Deep Groundwater Zone..... | B-35 |
| Figure 30. "Excavation" Scenario 3 - 2116 Predicted Arsenic (µg/L) in the Bedrock Groundwater Zone..... | B-36 |
| Figure 31. Predicted Beryllium (µg/L) at Monitoring Well AB-2D | B-37 |
| Figure 32. Predicted Beryllium (µg/L) at Monitoring Well MW-103S | B-38 |
| Figure 33. Predicted Beryllium (µg/L) at Monitoring Well GWA-18D..... | B-39 |
| Figure 34. Predicted Beryllium (µg/L) at Monitoring Well GWA-21D..... | B-40 |
| Figure 35. Initial (2016) Beryllium Concentrations (µg/L) in the Shallow Groundwater Zone | B-41 |
| Figure 36. Initial (2016) Beryllium Concentrations (µg/L) in the Deep Groundwater Zone | B-42 |
| Figure 37. Initial (2016) Beryllium Concentrations (µg/L) in the Bedrock Groundwater Zone | B-43 |
| Figure 38. "Existing Conditions" Scenario 1 - 2116 Predicted Beryllium (µg/L) in the Shallow Groundwater Zone | B-44 |
| Figure 39. "Existing Conditions" Scenario 1 - 2116 Predicted Beryllium (µg/L) in the Deep Groundwater Zone | B-45 |
| Figure 40. "Existing Conditions" Scenario 1 - 2116 Predicted Beryllium (µg/L) in the Bedrock Groundwater Zone..... | B-46 |
| Figure 41. "Closure" Scenario 2 - 2116 Predicted Beryllium (µg/L) in the Shallow Groundwater Zone..... | B-47 |
| Figure 42. "Closure" Scenario 2 - 2116 Predicted Beryllium (µg/L) in the Deep Groundwater Zone..... | B-48 |
| Figure 43. "Closure" Scenario 2 - 2116 Predicted Beryllium (µg/L) in the Bedrock Groundwater Zone..... | B-49 |
| Figure 44. "Excavation" Scenario 3 - 2116 Predicted Beryllium (µg/L) in the Shallow Groundwater Zone..... | B-50 |
| Figure 45. "Excavation" Scenario 3 - 2116 Predicted Beryllium (µg/L) in the Deep Groundwater Zone..... | B-51 |
| Figure 46. "Excavation" Scenario 3 - 2116 Predicted Beryllium (µg/L) in the Bedrock Groundwater Zone..... | B-52 |
| Figure 47. Predicted Boron (µg/L) at Monitoring Well AB-2D | B-53 |
| Figure 48. Predicted Boron (µg/L) at Monitoring Well MW-103S | B-54 |
| Figure 49. Predicted Boron (µg/L) at Monitoring Well GWA-18D..... | B-55 |
| Figure 50. Predicted Boron (µg/L) at Monitoring Well GWA-21D..... | B-56 |
| Figure 51. Initial (2016) Boron Concentrations (µg/L) in the Shallow Groundwater Zone..... | B-57 |
| Figure 52. Initial (2016) Boron Concentrations (µg/L) in the Deep Groundwater Zone | B-58 |
| Figure 53. Initial (2016) Boron Concentrations (µg/L) in the Bedrock Groundwater Zone..... | B-59 |
| Figure 54. "Existing Conditions" Scenario 1 - 2116 Predicted Boron (µg/L) in the Shallow Groundwater Zone..... | B-60 |
| Figure 55. "Existing Conditions" Scenario 1 - 2116 Predicted Boron (µg/L) in the Deep Groundwater Zone..... | B-61 |
| Figure 56. "Existing Conditions" Scenario 1 - 2116 Predicted Boron (µg/L) in the Bedrock Groundwater Zone..... | B-62 |

| | |
|--|------|
| Figure 57. "Closure" Scenario 2 - 2116 Predicted Boron (µg/L) in the Shallow Groundwater Zone..... | B-63 |
| Figure 58. "Closure" Scenario 2 - 2116 Predicted Boron (µg/L) in the Deep Groundwater Zone | B-64 |
| Figure 59. "Closure" Scenario 2 - 2116 Predicted Boron (µg/L) in the Bedrock Groundwater Zone..... | B-65 |
| Figure 60. "Excavation" Scenario 3 - 2116 Predicted Boron (µg/L) in the Shallow Groundwater Zone..... | B-66 |
| Figure 61. "Excavation" Scenario 3 - 2116 Predicted Boron (µg/L) in the Deep Groundwater Zone..... | B-67 |
| Figure 62. "Excavation" Scenario 3 - 2116 Predicted Boron (µg/L) in the Bedrock Groundwater Zone..... | B-68 |
| Figure 63. Predicted Chloride (µg/L) at Monitoring Well AB-2D..... | B-69 |
| Figure 64. Predicted Chloride (µg/L) at Monitoring Well MW-103S | B-70 |
| Figure 65. Predicted Chloride (µg/L) at Monitoring Well GWA-18D | B-71 |
| Figure 66. Predicted Chloride (µg/L) at Monitoring Well GWA-21D | B-72 |
| Figure 67. Initial (2016) Chloride Concentrations (µg/L) in the Shallow Groundwater Zone | B-73 |
| Figure 68. Initial (2016) Chloride Concentrations (µg/L) in the Deep Groundwater Zone..... | B-74 |
| Figure 69. Initial (2016) Chloride Concentrations (µg/L) in the Bedrock Groundwater Zone | B-75 |
| Figure 70. "Existing Conditions" Scenario 1 - 2116 Predicted Chloride (µg/L) in the Shallow Groundwater Zone | B-76 |
| Figure 71. "Existing Conditions" Scenario 1 - 2116 Predicted Chloride (µg/L) in the Deep Groundwater Zone..... | B-77 |
| Figure 72. "Existing Conditions" Scenario 1 - 2116 Predicted Chloride (µg/L) in the Bedrock Groundwater Zone..... | B-78 |
| Figure 73. "Closure" Scenario 2 - 2116 Predicted Chloride (µg/L) in the Shallow Groundwater Zone..... | B-79 |
| Figure 74. "Closure" Scenario 2 - 2116 Predicted Chloride (µg/L) in the Deep Groundwater Zone..... | B-80 |
| Figure 75. "Closure" Scenario 2 - 2116 Predicted Chloride (µg/L) in the Bedrock Groundwater Zone..... | B-81 |
| Figure 76. "Excavation" Scenario 3 - 2116 Predicted Chloride (µg/L) in the Shallow Groundwater Zone..... | B-82 |
| Figure 77. "Excavation" Scenario 3 - 2116 Predicted Chloride (µg/L) in the Deep Groundwater Zone..... | B-83 |
| Figure 78. "Excavation" Scenario 3 - 2116 Predicted Chloride (µg/L) in the Bedrock Groundwater Zone..... | B-84 |
| Figure 79. Predicted Chromium (µg/L) at Monitoring Well AB-2D..... | B-85 |
| Figure 80. Predicted Chromium (µg/L) at Monitoring Well 103-S..... | B-86 |
| Figure 81. Predicted Chromium (µg/L) at Monitoring Well GWA-18D | B-87 |
| Figure 82. Predicted Chromium (µg/L) at Monitoring Well GWA-21D | B-88 |

| | |
|---|-------|
| Figure 83. Initial (2016) Chromium Concentrations ($\mu\text{g/L}$) in the Shallow Groundwater Zone | B-89 |
| Figure 84. Initial (2016) Chromium Concentrations ($\mu\text{g/L}$) in the Deep Groundwater Zone.... | B-90 |
| Figure 85. Initial (2016) Chromium Concentrations ($\mu\text{g/L}$) in the Bedrock Groundwater Zone | B-91 |
| Figure 86. "Existing Conditions" Scenario 1 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Shallow Groundwater Zone | B-92 |
| Figure 87. "Existing Conditions" Scenario 1 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Deep Groundwater Zone | B-93 |
| Figure 88. "Existing Conditions" Scenario 1 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Bedrock Groundwater Zone..... | B-94 |
| Figure 89. "Closure" Scenario 2 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Shallow Groundwater Zone..... | B-95 |
| Figure 90. "Closure" Scenario 2 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Deep Groundwater Zone..... | B-96 |
| Figure 91. "Closure" Scenario 2 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Bedrock Groundwater Zone..... | B-97 |
| Figure 92. "Excavation" Scenario 3 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Shallow Groundwater Zone..... | B-98 |
| Figure 93. "Excavation" Scenario 3 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Deep Groundwater Zone..... | B-99 |
| Figure 94. "Excavation" Scenario 3 - 2116 Predicted Chromium ($\mu\text{g/L}$) in the Bedrock Groundwater Zone..... | B-100 |
| Figure 95. Predicted Cobalt ($\mu\text{g/L}$) at Monitoring Well AB-2D..... | B-101 |
| Figure 96. Predicted Cobalt ($\mu\text{g/L}$) at Monitoring Well MW-103S | B-102 |
| Figure 97. Predicted Cobalt ($\mu\text{g/L}$) at Monitoring Well GWA-18D | B-103 |
| Figure 98. Predicted Cobalt ($\mu\text{g/L}$) at Monitoring Well GWA-21D | B-104 |
| Figure 99. Initial (2016) Cobalt Concentrations ($\mu\text{g/L}$) in the Shallow Groundwater Zone.... | B-105 |
| Figure 100. Initial (2016) Cobalt Concentrations ($\mu\text{g/L}$) in the Deep Groundwater Zone..... | B-106 |
| Figure 101. Initial (2016) Cobalt Concentrations ($\mu\text{g/L}$) in the Bedrock Groundwater Zone . | B-107 |
| Figure 102. "Existing Conditions" Scenario 1 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Shallow Groundwater Zone | B-108 |
| Figure 103. "Existing Conditions" Scenario 1 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Deep Groundwater Zone..... | B-109 |
| Figure 104. "Existing Conditions" Scenario 1 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Bedrock Groundwater Zone..... | B-110 |
| Figure 105. "Closure" Scenario 2 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Shallow Groundwater Zone..... | B-111 |
| Figure 106. "Closure" Scenario 2 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Deep Groundwater Zone..... | B-112 |
| Figure 107. "Closure" Scenario 2 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Bedrock Groundwater Zone..... | B-113 |
| Figure 108. "Excavation" Scenario 3 - 2116 Predicted Cobalt ($\mu\text{g/L}$) in the Shallow Groundwater Zone..... | B-114 |

| | |
|--|-------|
| Figure 109. "Excavation" Scenario 3 - 2116 Predicted Cobalt (µg/L) in the Deep Groundwater Zone..... | B-115 |
| Figure 110. "Excavation" Scenario 3 - 2116 Predicted Cobalt (µg/L) in the Bedrock Groundwater Zone..... | B-116 |
| Figure 111. Predicted Hexavalent Chromium (µg/L) at Monitoring Well AB-2D | B-117 |
| Figure 112. Predicted Hexavalent Chromium (µg/L) at Monitoring Well MW-103S..... | B-118 |
| Figure 113. Predicted Hexavalent Chromium (µg/L) at Monitoring Well GWA-18D | B-119 |
| Figure 114. Predicted Hexavalent Chromium (µg/L) at Monitoring Well GWA-21D | B-120 |
| Figure 115. Initial (2016) Hexavalent Chromium Concentrations (µg/L) in the Shallow Groundwater Zone..... | B-121 |
| Figure 116. Initial (2016) Hexavalent Chromium Concentrations (µg/L) in the Deep Groundwater Zone..... | B-122 |
| Figure 117. Initial (2016) Hexavalent Chromium Concentrations (µg/L) in the Bedrock Groundwater Zone..... | B-123 |
| Figure 118. "Existing Conditions" Scenario 1 - 2116 Predicted Hexavalent Chromium (µg/L) in the Shallow Groundwater Zone..... | B-124 |
| Figure 119. "Existing Conditions" Scenario 1 - 2116 Predicted Hexavalent Chromium (µg/L) in the Deep Groundwater Zone | B-125 |
| Figure 120. "Existing Conditions" Scenario 1 - 2116 Predicted Hexavalent Chromium (µg/L) in the Bedrock Groundwater Zone | B-126 |
| Figure 121. "Closure" Scenario 2 - 2116 Predicted Hexavalent Chromium (µg/L) in the Shallow Groundwater Zone | B-127 |
| Figure 122. "Closure" Scenario 2 - 2116 Predicted Hexavalent Chromium (µg/L) in the Deep Groundwater Zone | B-128 |
| Figure 123. "Closure" Scenario 2 - 2115 Predicted Hexavalent Chromium (µg/L) in the Bedrock Groundwater Zone..... | B-129 |
| Figure 124. "Excavation" Scenario 3 - 2115 Predicted Hexavalent Chromium (µg/L) in the Shallow Groundwater Zone..... | B-130 |
| Figure 125. "Excavation" Scenario 3 - 2115 Predicted Hexavalent Chromium (µg/L) in the Deep Groundwater Zone | B-131 |
| Figure 126. "Excavation" Scenario 3 - 2115 Predicted Hexavalent Chromium (µg/L) in the Bedrock Groundwater Zone | B-132 |
| Figure 127. Predicted Thallium (µg/L) at Monitoring Well AB-2D..... | B-133 |
| Figure 128. Predicted Thallium (µg/L) at Monitoring Well MW-103S | B-134 |
| Figure 129. Predicted Thallium (µg/L) at Monitoring Well GWA-18D..... | B-135 |
| Figure 130. Predicted Thallium (µg/L) at Monitoring Well GWA-21D..... | B-136 |
| Figure 131. Initial (2016) Thallium Concentrations (µg/L) in the Shallow Groundwater Zone | B-137 |
| Figure 132. Initial (2016) Thallium Concentrations (µg/L) in the Deep Groundwater Zone... | B-138 |
| Figure 133. Initial (2016) Thallium Concentrations (µg/L) in the Bedrock Groundwater Zone | B-139 |
| Figure 134. "Existing Conditions" Scenario 1 - 2116 Predicted Thallium (µg/L) in the Shallow Groundwater Zone | B-140 |

Figure 135. “Existing Conditions” Scenario 1 - 2116 Predicted Thallium (µg/L) in the
Deep Groundwater Zone B-141

Figure 136. “Existing Conditions” Scenario 1 - 2116 Predicted Thallium (µg/L) in the
Bedrock Groundwater Zone..... B-142

Figure 137. “Closure” Scenario 2 - 2116 Predicted Thallium (µg/L) in the Shallow
Groundwater Zone..... B-143

Figure 138. “Closure” Scenario 2 - 2116 Predicted Thallium (µg/L) in the Deep
Groundwater Zone..... B-144

Figure 139. “Closure” Scenario 2 - 2116 Predicted Thallium (µg/L) in the Bedrock
Groundwater Zone..... B-145

Figure 140. “Excavation” Scenario 3 - 2116 Predicted Thallium (µg/L) in the Shallow
Groundwater Zone..... B-146

Figure 141. “Excavation” Scenario 3 - 2116 Predicted Thallium (µg/L) in the Deep
Groundwater Zone..... B-147

Figure 142. “Excavation” Scenario 3 - 2116 Predicted Thallium (µg/L) in the Bedrock
Groundwater Zone..... B-148
